The A-Z of Empowering Personal Qualities Compiled by Katey Clarke for the Moon Magic Master Tarot Programme

All Moon Magic course participants, readers in training and graduates are encouraged to aspire to and walk with these qualities...

A – Authentic... Authentic people radiate light! Be a sincere representation of who you are, inside and out... you can then be seen and known as a genuine person. It is a courageous thing to live in your authenticity, and even though it can be challenging at times, if you think of the most authentic person you know, their authenticity will almost certainly have benefited, changed and improved both their own lives as well as the lives of those around them.

B - Bold... Be bold... be brave... and have courage! Find the confidence to speak up or step up, even in the face of uncertainty or bad outcomes... and especially when no one else will. When you develop courage in the face of risk... or you go that one step further... or you try again... and even again... you will be growing, developing strength and boldness and shining a light that others will follow. Following your intuition is also a bold act. Do whatever it is that encourages you to be bold and share this with your peers.

C - Caring... Caring people show genuine attentiveness to others and to themselves! Nurture, kindness and empathy come naturally to them, and they perform acts of kindness without ever feeling the need to tell anyone about it. There is no place for personal agenda in true care. Care embodies the high vibrational frequency of love, pure and simple!

D - Discerning... Being discerning creates good insight and sound judgement... you will be able to spot and understand subtle distinctions and be thoughtful, conscious, mindful and deliberate, in your considerations. People who are discerning are natural truth-seekers and they value clarity and wisdom. How sharp is your discernment, can you easily see/feel what is beneficial and what is not?

E - Ethical... Living an ethical life and adhering to principles of right action and right conduct and with moral integrity without judgement raises your vibration! How consistent are you in what you say and what you do... do you walk your talk and does the moon Magic Ethical Framework sing to your soul!

F - Fortitude... Fortitude supports courage and resilience... having the mental and emotional strength to face difficulty or adversity with a steady and quiet determination will strengthen your character and build patience. People with fortitude are often seen as a pillar of strength to others... courageous and seldom complaining... and able to bounce back. But above all, when fortitude is felt from within, you will know it took discipline to get there, and this is something to be proud of... so challenge yourself... and quietly look within to develop your strength!

G - Gratitude... Scientists tell us that gratitude resonates at an incredibly high frequency, impacting massively on our ability to manifest successfully. When you observe everything through the lens of gratitude you recognise, appreciate, and value of every aspect of your life. Being grateful is an action and a feeling... and like love, we cannot be passive about it. Have you told someone that you are grateful for them today... have you told yourself?

H - Humility... Humility is a truly reverend quality, enabling you to recognise both your strengths and your limitations, and treat them both with the same grace! What keeps you humble... and do you have at least one person in your life who you can be completely honest with... even if they tell you things you might not want to hear! A blessing indeed!

I - Integrity... When someone has integrity, they are honest, and ethical, and their actions consistently demonstrate these principles in a respectful way. People with integrity have often experienced some tough life lessons and yet they have used these experiences to grow and to learn. How do you handle difficult situations... can you find the learning?

J - Justice... To be Just means being trustworthy and to possess good judgement. People with a strong sense of justice often feel compelled to speak out against injustice. Have injustices and inequalities ever made you want to step up or speak out... what kinds of situations compel you to be a force for good in the world?

K - Knowledgeable... To be knowledgeable means that you have learned and experienced so much, that others are inspired to learn from you... and this takes time and a lot of learning... and a lot of growing! Can you think of someone whose expanse of knowledge inspires you to want to learn and to grow. When you are receptive to learning and growing you can never be on the wrong path, for knowledge is always building... and who knows... you might end up being someone else's inspiration... you might even be inspiring someone right now!

L - Listening... Learning to listen is one of the greatest gifts you can offer yourself... when you listen... to others... to yourself... to all of life... you can begin to really hear the feedback, guidance, and support, that your surroundings and the world wishes to share with you, each and every day. A good teacher speaks, but a great teacher listens! So slow down,,, get present... and listen!

M - Motivating... Motivating yourself and others is a wonderful quality... if you are someone who naturally encourages and mentors those around you with optimism, and positive, dynamic communication then you are a born motivator... but be sure to keep this in balance! We often see motivation as moving forwards towards a goal... however, it can also look like... I am motivated to slow down, restructure my priorities, and take some me-time. So if you are a positive force for motivation and people tend to be more active, create or talkative when you are around... then be mindful of your influence... and also make sure that in being your wonderfully motivating self for others... you also save enough energy for you!

N - Not-Knowing... Acknowledging what you do NOT know as well as what you do shows strength of character and wisdom. Being honest with yourself and others and not berating yourself for not-knowing all the answers or not-knowing what to do in certain situations or not-knowing what to say demonstrates great integrity... so play with this! Learn to sit with the not-knowing and give yourself full permission to grow into your wisdom!

O - Openness... Openness demonstrates a willingness to consider new ideas, experiences, and perspectives and to embrace difference as a source of potential! When you cease to be open you are closing the door of possibility... when you remain open to the surprises that the unknown and the unseen can bring, with a willingness to trust and discover, you open yourself to a creative space of infinite possibilities! What a liberating way to live!

P - Patient... It is often said that patience is a virtue! It is certainly a blessing when you can remain calm, composed, steady and tolerant when facing challenges or uncertainty or frustration when a situation does not unfold as you would wish. Like a good relationship... the very best things in life often take time to manifest... so develop your patience beautiful Soul and trust that the world will bring you all that you need... though perhaps not always exactly what you want.

Q - Qualitative... When quality takes a precedence over quantity, and you seek depth and richness rather than the superficial, you will begin to discover and truly know what really matters to you... and you will discover that all you hold dear can never be measured!

R- Reliable... Consistent actions that demonstrate to others that you can be counted on, for better or worse, radiates integrity, creating a core foundation of trust within all your relationships, whether that be with your fellow human beings, your friends, family, or partners in love... or all of life that surrounds you... animal brothers and sisters, nature spirits, tree spirits, the earth herself... when you are reliably you, all will respond to you with a knowing of your true worth.

S - Self-Respect... Self-Respect and valuing yourself and what you bring to the world creates a balanced sense of dignity and pride from within... a gentle non-arrogant sense of self... and sense of presence... and sense of purpose... and with good boundaries too. How often do you tell yourself that YOU ARE WORTH IT!

T - Teachable... Being teachable means that you are receptive to receiving new information, widening your perspectives and experiences.... and capable of applying yourself to active learning. Being teachable also means that you are open to receiving feedback... are you open to listen and learn... how teachable are you?

U - Unbiased... To be impartial, fair, and open to the opinions of others even when they demonstrate the exact opposite of your own perspectives can be a major challenge making it hard to sit in a space of inclusivity... but... when you give differences the opportunity to be present and be heard then everyone gets to experience a safer and more welcoming environment...maybe learning a little more along the way. Are you open to giving everyone a chance?

V - Visionary... The journey to become a Moon Magic Master Tarot Reader invites progressive growing and pioneering thinking! Everything starts with one single thought and every big and wondrous idea has grown from a single insight. Do you trust your intuition and even when the path is unclear can you find a way to see and feel your way toward your vision... welcome friends... visionaries are needed in this vocation!

W - Wise... Wisdom is something that accumulates... builds over time... and never stops growing/expanding/evolving! To have good insight... to have wisdom and to wear the wisdom badge, it is likely that you will have over-come a fair few wobbles along the way! Congratulations... this is not an easy journey, but it is one that you can now use to not only to inspire yourself further... but also to inspire others?

X - eXcellently... To strive to be eXcellent... to reach for distinction... to wish to perfect your craft and to be of service... these are some of the attributes that fuel the desire to be eXcellent and to make your greatest contribution and to offer your highest effort! But be sure to keep this in balance... because being 'good enough' is also an 'eXcellent' state of being and a very healthy perspective to uphold.

Y - Yearning... When you have a yearning for learning... a lust for life... a constant hunger to know more... to do more... and to be more... in whatever way that this may emerge and evolve... then you are a life-long learner... and fully alive and present to all that life may bring!

Z - Zealous... When you are devoted and driven by a cause greater than yourself you will rise and do amazing things! Do you have a soul passion to help others and to create a better world... then let us walk together... and wherever this journey takes us each as individuals... may we become a collective International Voice of Light!
